Oregon reports 344 new confirmed and presumptive COVID-19 cases, 0 new deaths; provides Watch List data

PORTLAND, Ore. — The state’s death toll from COVID-19 is unchanged from yesterday and remains at 209, the Oregon Health Authority reported at 12:01 a.m. today.

Oregon Health Authority reported 344 new confirmed and presumptive cases of COVID-19 as of 12:01 a.m. today, bringing the state total to 9,636.

The new confirmed and presumptive COVID-19 cases reported today are in the following counties: Benton (7), Clackamas (22), Clatsop (1), Columbia (3), Coos (1), Crook (1), Deschutes (9), Douglas (1), Jackson (9), Jefferson (5), Josephine (3), Klamath (2), Lake (1), Lane (16), Lincoln (18), Linn (2), Malheur (20), Marion (32), Morrow (10), Multnomah (59), Polk (5), Sherman (1), Tillamook (1), Umatilla (49), Union (8), Wasco (10), Washington (46), and Yamhill (1).

The Health Authority also released a table showing recent trends in cases by county between mid-June and the beginning of July.

These trends show where the COVID-19 virus is spreading at the fastest rate and which counties have the highest rates of “sporadic” transmission – i.e., cases that do not have a clear epidemiological link to other outbreaks or clusters of infections and therefore indicate that the virus is spreading uncontained in a community.

Governor Kate Brown identified eight counties that will be placed on a “Watch List” based on these data: Jefferson, Lake, Lincoln, Malheur, Morrow, Umatilla, Union, Wasco. State and local health officials will closely monitor the situation in these counties in coming days and prioritize additional resources to suppress the virus in these hotspot communities.

¹This includes cases confirmed by diagnostic testing and presumptive cases. Presumptive cases are those without a positive diagnostic test who present COVID-19-like symptoms and had close contact with a confirmed case. County of residence for cases may change as new information becomes available. If changes occur, we will update our counts accordingly.

²For additional details on individuals who have died from COVID-19 in Oregon, please [refer to our press releases](#).

³This includes cases who test negative and are not epi-linked to a confirmed case.
