

## KLAMATH COUNTY PUBLIC WORKS DEPARTMENT

### ROAD PROJECTS FOR THE WEEK OF MAY 14, 2018

Klamath County will have work crews at the following locations. Please use caution when in these areas and watch for flaggers. If you are able to avoid these work zones, please use alternate routes for your safety and the safety of Klamath County employees.

#### **Skinny Patch (Asphalt)**

Highway 39 S from Stateline Road to Gaines Road  
Hilyard Avenue west of Highway 39 (South Sixth Street)

#### **Homedale Bridge**

Crews will be working on the Homedale Road Bridge south of Airway Drive. Work will include a grind and asphalt inlay.

#### **Crack Seal**

Chiloquin Ridge Road  
Pine Cone Drive  
Pine Ridge Road  
South Chiloquin Road

In general, flagging stations will be set up at the end of the work zone and delays will be 0-20 minutes for the motoring public. Other minor work is occurring through the County but we are only listing the major items in this announcement.

There may be adjustments of work schedules due to weather or other items outside of the County's control (breakdown of equipment, material/resource availability, etc.)

Please do not contact the County if you do not see work occurring, it could be finished already or is rescheduled.

Klamath County Public Works and the Board of County Commissioners appreciate the motoring public's patience during the repair season for our local roads and bridges. If you have any questions regarding work, please contact the Public Works Department at (541) 883-4696.
