

Law Library

Significant Changes 2016-2017

- **Personnel Services for Law Library employees are now line items of the Law Library budget and not a transfer to the Library Service District**
- **A Travel budget has been reinstated to allow for conference and meeting attendance of Law Library personnel**
- **Klamath County Courts adoption of e-court has increased technology needs resulting in an increase in the materials and services budget for more equipment and computer furnishings for patron use**
- **Last year's addition of a second part time Law Library Assistant, which increased public hours from 14 to 24, has better met public need and fewer missed days of service due to vacations, travel, or illness**
