

Animal Control Significant Changes 2016-2017

- With the 2015 contract with the Klamath Animal Shelter the fees have gone down but so have services that are offered. Our new license program with Rescue Connection is in the process of data transfer with the IT dept.**
- We are looking at bringing our Part time office assistant to full time to spearhead the new license program conversion, and web page creation. Bringing on a Part time officer to work the License compliance program, and assist as needed.**
- Looking into other alternatives to house our office after our rental contract expires in March 2017.**
