REPORT OF INDEPENDENT AUDITORS

Board of Commissioners
Klamath County Employees' Pension Plan

Report on the Financial Statements

We have audited the accompanying statement of plan net position available for benefits and statement of changes in plan net position available for benefits of Klamath County Employees' Pension Plan (the Plan), a component unit of Klamath County, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Plan's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

MOSS ADAMS LLP***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Plan as of June 30, 2013, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 3 through 5, schedule of funding progress on pages and schedule of employer contributions on page 14 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 3, 2014 on our consideration of the Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Plan's internal control over financial reporting and compliance.

Klamath County Employees' Pension Plan
(Trust Fund of Klamath County, Oregon)
Management's Discussion and Analysis
For the Year Ended June 30, 2013

This section presents management's discussion and analysis of the Klamath County Employees' Retirement Plan's (the Plan) financial performance during the fiscal year that ended June 30, 2013. For more detailed information regarding the Plan's financial activities, the reader should also review the actual financial statements, including the notes and supplementary information.

Financial Highlights

- The Plan's assets exceed its liabilities at the close of fiscal year 2013, with \$37.2 million held in trust for pension benefits.
- Fiduciary net position increased by \$3.7 million, or 11 percent, during the fiscal year.
- The Plan's funding objective is to meet long-term benefit obligations. As of January 1, 2013, the date of the latest actuarial valuation, the funded ratio of the defined benefit pension plan was 66.7 percent. In general, this means that for every dollar of pension benefits due, the Plan has approximately \$0.67 of net position available for payment.
- Revenues (additions to fiduciary net position) for fiscal year 2013 were \$6.7 million, which includes member and employer contributions of \$2.5 million and net income from investment activities totaling \$4.2 million.
- Expenses (deductions from fiduciary net position) during the fiscal year 2013 were \$3.0 million, which includes benefit payments of \$2.7 million and administrative expenses of \$0.3 million.

Overview of the Financial Statements and Accompanying Information

1. Basic Financial Information

The Plan presents financial statements as of June 30, 2013, prepared on a full accrual basis. They are:

- a. Statements of Net Position Available for Plan Benefits,
- b. Statements of Changes in Net Position Available for Plan Benefits, and
- c. Notes to the Financial Statements.

2. Required Supplementary Information

The required supplementary information consists of:

- a. Schedules of Funding Progress for Plan Benefits,
- b. Schedules of Employer Contributions for Plan Benefits, and
- c. Notes to the Required Supplementary Information.

The basic financial statements contained in this financial report are described below:

- The Statement of Net Position reports a point-in-time snapshot of account balances at fiscal year-end. It reports the assets available for future benefit payments and any current liabilities as of the statement date. The liabilities do not include the actuarial value of future benefits. Net Position (Assets – Liabilities = Net Position) represent the value of assets held in trust for payment of benefits.
- The Statement of Changes in Net Position Available for Plan Benefits reports the sources and uses of funds during the fiscal year, where Additions – Deductions = Net Increase (or Decrease) in Net Position. This Net Increase (or Decrease) in Net Position illustrates the change in net position as reported in the Statement of Net Position Available for Plan Benefits from the prior year to the current year.

The financial statements are prepared based on an economic resources focus and accrual basis of accounting in accordance with Governmental Accounting Standards Board (GASB) pronouncements. The provision of objective, consistent, and comparable information about operating costs requires a measurement focus on economic resource flows. It also requires use of the accrual basis of accounting, which recognizes economic transactions and other events when they occur rather than only when the related inflows and outflows of cash or other financial resources occur. Acquired but unused goods and services are reported as assets until they are used, thus giving important information about resources already acquired that can be used to provide future services.

- The notes to the financial statements, beginning on page 7, are an integral part of the financial statements and include additional detailed information and schedules to provide a better understanding of the financial statements. Information in the notes discloses the Plan's organization, benefits and contributions, how asset values are determined, and contingencies and commitments.

Klamath County, Oregon
Klamath County Employees' Pension Plan
(Trust Fund of Klamath County, Oregon)
Management's Discussion and Analysis
For the Year Ended June 30, 2013

In addition to the financial statements explained above, this financial report includes two additional Required Supplementary Information schedules with historical trend information and other supplementary information as described below.

- The Schedule of Funding Progress, page 11, contains actuarial information about the status of the plan from an ongoing, long-term perspective, showing whether there are sufficient assets to benefits when due. Valuation Assets in excess of Actuarial Liabilities indicate that sufficient assets have been accumulated as of the valuation date to fund the future benefits of current members and retirees.
- The Schedule of Employer Contributions, page 11, contain historical trend information regarding the value of the total annual employer contributions required to be made and the actual contributions made to meet this requirement.

Financial Analysis

The condensed comparative summaries below demonstrate that the pension trust funds are primarily focused on investments and net position (reserves).

Improving financial markets produced positive returns on Plan investments. The net position of the Plan increased approximately \$3.7 million, or 11 percent, during the year ended June 30, 2013.

	<u>2013</u>	<u>2012</u>
Total assets	\$ 37,313,106	\$ 33,622,696
Total liabilities	25,604	18,051
Total net position	<u>\$ 37,287,502</u>	<u>\$ 33,604,645</u>
Plan member contributions	\$ 895,755	\$ 957,867
Employer contributions	1,621,147	1,570,136
Net investment income	4,158,123	62,191
Total additions	<u>6,675,025</u>	<u>2,590,194</u>
Benefit payments	2,743,111	2,750,941
Administrative expenses	<u>249,057</u>	<u>219,156</u>
Total deductions	<u>2,992,168</u>	<u>2,970,097</u>
Change in net position	<u>\$ 3,682,857</u>	<u>\$ (379,903)</u>

Plan Membership

The table below reflects the defined benefit pension plan membership as of the beginning and end of the fiscal year.

Changes in Plan Membership
As of January 1:

	<u>2013</u>	<u>2012</u>
Active and transferred participants	341	360
Participants with deferred benefits	34	33
Participants receiving benefits	263	252
Non-vested terminated participants with account balances	8	18
Total	<u>646</u>	<u>663</u>

Klamath County, Oregon
Klamath County Employees' Pension Plan
(Trust Fund of Klamath County, Oregon)
Management's Discussion and Analysis
For the Year Ended June 30, 2013

Funding Status

The Plan's Unfunded Actuarial Liability (UAL) for pension benefits increased by \$1.3 million, going from \$15.2 million in 2012 to \$16.5 million as of January 1, 2013. The System's UAL was derived using the aggregate cost method. Investment gains through January 1, 2013, led to the increased funding status.

Investment Activities

During the fiscal year 2013 investments increased substantially over the prior fiscal year as the economy recovered. During the fiscal year, a reallocation of investments were made increasing investments in domestic stocks and mutual fund equities and reducing the allocation to foreign stocks and cash.

Effect of Economic Factors

The financial position of the Plan remained similar to the previous year due to investment returns. The percentage of the employer's Annual Required Contribution that is funded each year may be subject to budgetary constraints.

Contacting the System's Financial Management

This financial report is designed to provide plan participants, the employer, citizens, taxpayers, and others with a general overview of the Plan's finances and to demonstrate the Board's oversight of the Plan. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer, Klamath County, 305 Main Street, Klamath Falls, Oregon 97601.

**Klamath County Employees' Pension Plan
Notes to Financial Statements
For the Year Ended June 30, 2013**

Note 1 – Summary of Significant Accounting Policies

Introduction

The Klamath County Employees' Pension Plan (Plan) is intended to provide employees of Klamath County with income in the event of retirement, death or disability. The Plan's Administrator is the County's Director of Human Resources. The Director of Human Resources is responsible for all aspects of the Plan's operations, except holding and investing plan funds. The Director cannot alter the terms, conditions or benefits of the Plan, but is responsible for making decisions regarding questions, interpretations and applications, if any. The Director of Human Resources establishes the funding policy for the Plan in consultation with the enrolled actuaries retained by the Plan. The funding policy establishes the required County contributions. All funds of the Plan are held in a trust fund for the Plan. An investment committee consisting of the Board of County Commissioners, the Director of Human Resources, and the Chief Financial Officer are responsible for supervision of the investment of the funds.

Reporting Entity

The accompanying financial statements present the Klamath County Employee's Pension Plan, a fiduciary fund of Klamath County. The Plan has no component units.

Basis of Accounting

The Plan's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Method Used to Value Investments

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Fair value of other securities is determined by the mean of the most recent bid and asked prices as obtained from dealers that make markets in such securities. Investments for which market quotations are not readily available are valued at their fair value as determined by the custodian under the direction of the Plan's Board of Trustees, with the assistance of a valuation service.

Use of Estimates

In preparing the Plan's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 – Plan Description, Participant Accounts, Contribution Information, and Retirement Benefits

Membership of the plan consisted of the following at January 1, 2013, the date of the latest actuarial valuation:

	2013
Active and transferred participants	341
Participants with deferred benefits	34
Participants receiving benefits	263
Non-vested terminated participants with account balances	8
Total	646
Number of participating employers	1

Plan Description

The following description of the Klamath County Employees' Pension Plan is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

Qualified Klamath County employees, other than Sheriff's and Community Corrections department personnel with previous designations, are participants in the Klamath County Employees' Pension Plan. The plan was established February 1, 1967 and was amended and restated December 19, 2012, including provisions through the first amendment. This plan is a single employer defined benefit pension plan to which the County makes contributions. The plan is a stand alone plan and covered under the Internal Revenue Code 401(a) and the subsequent trust document/restatement.

Klamath County Employees' Pension Plan
Notes to Financial Statements
For the Year Ended June 30, 2013

Note 2 – Plan Description, Participant Accounts, Contribution Information, and Retirement Benefits *(continued)*

All Klamath County employees are considered to be a Qualified Employee except the following:

- An employee covered by the Oregon State Public Employees' Retirement System (PERS).
- An employee regularly scheduled to work 19 hours or less per week.
- An employee scheduled to work less than five months per year.
- A temporary employee as defined by Klamath County Human Resource policy.
- A leased employee on the payroll of an outside firm.

An employee begins participation in the Plan on the first day of the new month after beginning work or becoming a Qualified Employee.

For purposes of vesting, service starts on the day the first hour of service is performed for Klamath County and ends on the day of severance from service with Klamath County. Periods of service of less than a year are credited based on the number of completed months of service and are aggregated to form whole years of Service. There are no requirements to work a specific number of hours to receive service.

An hour of service means an hour for which a qualified employee is paid, or entitled to payment, for the performance of duties as a Klamath County employee.

Severance from service will occur on the earlier of the following dates:

- The date an employee retires, quits, is terminated, or dies.
- The first anniversary of the date an employee stops working for any other reason, such as vacation, holiday, sickness, leave of absence (including family leave) or layoff.

Credited service is one of the factors which determine the dollar amount of retirement benefits. Credited service includes periods of time during which participant contributions were made by the employee or paid for by Klamath County.

Periods of credited service of less than a year are counted based on completed months of credited service and are aggregated to form whole years of credited service. There are no requirements to work a specific number of hours to receive credited service.

If an employee has a severance from service and later returns to work for Klamath County, the employee will re-enter the Plan on the first day of the new month following re-hire or designation as a qualified employee. Vesting service and credited service prior to leaving employment will count after the employee is rehired unless the employee received a cash payment of the participant account for this period. If the employee did receive a cash payment, they will be treated as a new employee.

Qualified employees will receive vesting service and credited service for periods of military service to the extent required by law.

Participant Accounts

The Human Resources Department will coordinate the set-up of participant accounts with the Plan Trust for bookkeeping purposes. Participant accounts will be credited with participant contributions, County contributions and interest.

Contributions

Employee contributions equal to 6% of pay are paid by employees on a mandatory salary reduction basis. In addition, the County contributes 1% of pay to employee's accounts which is vested immediately. Employee contributions and vested employer contributions are accumulated with interest at 6.5% per year.

Vesting essentially refers to "ownership". Participant accounts are always 100% vested and are not forfeitable. Retirement plan benefits are 100% vested upon the completion of 5 years of service or after attaining age 55.

Employer contributions are made in addition to the 1% at a discretionary rate set by the Board of County Commissioners. This rate was set at 10% for the year-ended June 30, 2013.

Retirement Dates

The Normal Retirement Date is age 62. The early retirement date is any date on or after age 55 and before the normal retirement date. The deferred retirement date is any date after the normal retirement date.

Klamath County Employees' Pension Plan
Notes to Financial Statements
For the Year Ended June 30, 2013

Note 2 – Plan Description, Participant Accounts, Contribution Information, and Retirement Benefits *(continued)*

Normal Retirement Basic Benefit

The normal retirement basic benefit is a modified cash refund annuity with a monthly pension benefit for life and a contingent death benefit. Retirement benefits are calculated using a formula. Included in the formula are years of credited service and highest average pay over three consecutive years out of the last years of credited service preceding the date of determination.

Early Retirement Basic Benefit

Qualified employees may retire early if they are at least age 55. If they retire and begin receiving benefits before the normal retirement date, the retirement benefits will be reduced based on the number of months that the benefit starting date precedes the normal retirement date. This reduction reflects the cost of paying retirement benefits over a longer period of time.

The early retirement basic benefit equals the normal retirement basic benefit, calculated using the years of credited service and highest average pay as of the early retirement date, and reduced by 5/12 percent for each month that the benefit starting date precedes the normal retirement date.

Deferred Retirement Basic Benefit

If an employee continues to work beyond the normal retirement date, the deferred retirement basic benefit is calculated in the same manner as the normal retirement basic benefit. However, for as long as the employee works, they will continue to get additional years of credited service. Also, the highest average pay will be determined based on the 36 consecutive months out of the last 10 calendar years. The employee can start collecting their deferred retirement basic benefit when they actually retire.

Plan Amendment or Termination

The County's Board of Commissioners have the authority for establishing and amending contribution requirements and to amend or terminate the Plan at any time. No amendment may reduce employees' vested rights or change the Plan so that it would not be for the benefit of employees. If the Plan is terminated, benefits will immediately become fully vested to the extent they are funded and available funds will be allocated in the order set out below. All benefits for individuals within each priority group shall be provided for before any benefits are paid for individuals in the next lower priority group. If funds are insufficient to pay all benefits for individuals within a group, the amount available shall be allocated among the individuals within the group in proportion to their interests. The order of priority, determined as of the day before termination, shall be:

- Benefits that are in pay status.
- All other vested accrued benefits.
- All other accrued benefits.

Note 3 – Investments

The Plan maintains all investments in a trust fund at US Bank.

Investments are comprised of the following:

	Market	% of Total Portfolio
Money market funds	\$ 516,690	1%
Mutual funds government	1,522,403	4%
Mutual funds corporate & other	8,625,546	23%
Common stock domestic	20,441,275	55%
Common stock foreign	3,516,354	10%
Mutual funds equity	1,560,313	4%
Mutual funds fixed income	795,771	2%
Accrued Income	137,912	0%
	36,599,574	99%
	\$ 37,116,264	100%

Klamath County Employees' Pension Plan
Notes to Financial Statements
For the Year Ended June 30, 2013

Note 3 – Investments *(continued)*

The Plan's investments include mutual funds government, corporate, equity, fixed income and other, common stock domestic and foreign, and money market funds. Fair values of all investments in the Plan are based on published market prices.

Concentration of credit risk and credit risk

The Plan's investment policy limits short term investments to US Treasury bills and other obligations issued or guaranteed by the US government, certificates of deposit and bankers acceptances of the largest commercial banks in the US, or local institutions as approved by Plan trustees and administrator, and commercial paper rated A-1 or Prime-1 at the time of purchase, or if not rated, by companies having outstanding debt rated at A or better.

Fixed income investments will be comprised of a mix of securities from various fixed income sectors including, but not limited to, US Treasury and Agency securities, mortgage-backed and asset-backed securities, corporate securities, convertible bonds, and cash equivalents. Fixed income investments will be rated investment grade at the time of purchase. Except for US Treasury, Agency, or US government sponsored enterprises, no more than 5% of the market value of the portfolio may be invested in unsecured investments of any one issuer.

Equity portfolios will consist of value, core, and growth equity investment styles.

Custodial credit risk – investments

For an investment, this is the risk that, in the event of the failure of the counterparty, the Plan will not be able to recover that value of its investments or collateral securities that are in the possession of an outside party. The Plan's investment policy allows the entire investment portfolio to be held in safekeeping or the trust department of a single custodian. All investments were held by the Plan in its own name.

Interest rate risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Plan manages this risk by limiting the maturity of the investments held by fund. The investment policy states that cash equivalents will have a maturity of 13 months or less. No investment may mature in over 30 years as measured from settlement dates.

In accordance with its investment policy, the Plan maintains its investments to conform to federal, state and other legal requirements; to preserve capital and protect investment principal; to maintain sufficient liquidity to meet operating requirements; and, to diversify and attain market rates of return throughout budgetary and economic cycles.

The Plan's investment policy calls for a balanced portfolio following guidelines for minimum, target, and maximum allocations as follows:

Investment class	<u>Minimum</u>	<u>Target</u>	<u>Maximum</u>
Money market	0%	5%	10%
Investment grade fixed income	10%	25%	60%
Inflation protected securities	0%	0%	2%
Large capitalization equities	20%	40%	50%
Mid capitalization equities	5%	10%	20%
Small capitalization equities	5%	10%	15%
Equity sectors	0%	0%	15%
International equities	5%	10%	15%
Real estate investment trust equities	0%	0%	5%
Commodities	0%	0%	2%
Precious metals	0%	0%	2%
Total		<u>100%</u>	

Klamath County Employees' Pension Plan
Notes to Financial Statements
For the Year Ended June 30, 2013

Note 3 – Investments *(continued)*

Compliance

The Plan has been out of compliance with its investment policy statement as it relates to holding debt securities with ratings below A/A2. The investment committee recognizes the violation and has authorized the non-compliance.

Note 4 – Funded Status and Funding Progress

The funded status of the plan as of January 1, 2013, the most recent actuarial valuation date, is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) Entry Age (b)	Unfunded AAL (UAAL) (b - a)	Funded Ratio (a / b)	Covered Payroll (c)	UAAL as Percentage of Covered Payroll ((b - a) / c)
1/1/2013	35,024,000	51,568,000	16,544,000	68%	14,077,000	118%

Pension costs of the plan as of the January 1, 2013, the most recent actuarial valuation date, is as follows:

Fiscal Year Ending	Annual Pension Cost	Amount Contributed	Percentage of Annual Pension Cost Contributed	Net Pension Obligation	Annual Required Contribution (ARC)	Percentage of ARC Contributed
6/30/2013	\$ 1,948,112	\$ 1,618,431	83%	\$ 1,300,606	\$ 2,012,946	80%
6/30/2012	1,853,123	1,575,853	85%	970,925	1,898,907	83%
6/30/2011	2,035,159	1,698,150	83%	693,655	2,058,158	83%

The schedules of funding progress, presented below and as required supplementary information following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) - Entry Age (b)	Unfunded AAL (UAAL) (b - a)	Funded Ratio (a / b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b - a) / c)
1/1/2008	31,523	37,481	5,958	84%	15,532	38%
1/1/2009	29,158	40,678	11,520	72%	16,476	69%
1/1/2010	32,241	42,992	10,751	75%	16,715	64%
1/1/2011	33,649	45,468	11,819	74%	16,284	73%
1/1/2012	34,397	49,640	15,243	69%	14,814	103%
1/1/2013	35,024	51,568	16,544	68%	14,077	118%

Notes to Financial Statements
For the Year Ended June 30, 2013

Note 4 – Funded Status and Funding Progress (continued)

Year Ended June 30	Annual Required Contribution	Percentage Contributed
2008	958,468	100%
2009	1,086,422	100%
2010	2,038,937	83%
2011	2,058,158	83%
2012	1,898,907	83%
2013	2,012,946	80%

Additional information as of the latest actuarial valuation follows:

- Actuarial cost method - Because the aggregate cost method does not identify or separately amortize unfunded actuarial liabilities, information about the plan's funded status and funding progress must be disclosed using the entry age actuarial cost method, which is intended to serve as a surrogate for the funded status and funding progress of the plan. For this purpose, the entry age accrued liability has been calculated by allocating benefits on a level percent of payroll from entry age to assumed exit age, where entry age was set equal to date of participation.
- Amortization method - Liabilities and contributions are computed using the level percent of compensation aggregate funding method. The objective under this method is to fund all participants' benefits under the plan as payments which are level as a percentage of the group's aggregate compensation, starting at the valuation date and continuing until their assumed dates of retirement, termination, disability and death. The method does not distinguish between benefits credited for past and future service, nor between liabilities created before and after the introduction of the funding method.
- Asset valuation method - The actuarial value of assets is based on a five-year smoothed market value. The method is described below:
 - The actuarial value of assets will equal the market value of assets with investment gains subtracted and losses added, as follows:
 - 4/5 of prior year's gain or loss
 - 3/5 of the second preceding year's gain or loss
 - 2/5 of the third preceding year's gain or loss
 - 1/5 of the fourth preceding year's gain or loss
 - Investment gain or loss amounts are calculated based on the expected return on the market value.
 - The actuarial value of assets will be adjusted to be no greater than 120 percent and no less than 80 percent of the fair market value.
- Actuarial assumptions:
 - Investment rate of return – The investment rate of return is 7.25% compounded annually.
 - Projected salary increases – The projected salary increase rates range from 3.18% to 8.18%.
 - Cost of living adjustments – There are no cost of living adjustments.

Note 5 – Subsequent Events

Klamath County adopted through its budget process an increased employer contribution for the following fiscal year of 15% versus the 10% contribution in this fiscal year.

In July 2013, Klamath County chose to reduce its workforce by approximately 50 employees by eliminating the mental health outpatient and inpatient treatment department. The effects of this change in number of participants on the Pension Plan has not been evaluated.

GOVERNMENT AUDITING STANDARDS SECTION

REPORT OF INDEPENDENT AUDITORS ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Commissioners
Klamath County Employees' Pension Plan

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the accompanying statement of plan net position, and statement of changes in plan net position of Klamath County Employees' Pension Plan (the Plan), a component unit of Jackson County, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise Klamath County Employees' Pension Plan's basic financial statements, and have issued our report thereon dated January 3, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Plan's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Plan's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
