Oregon Water Resources Department
Attention: Grant Program Coordinator
725 Summer Street NE, Suite A
Salem, OR 97301

Ms. Williams:

The Klamath County Commissioners support Farmers Conservation Alliance's partnership with Klamath Irrigation District and other members of the Klamath Project to develop a comprehensive System Improvement Plan that will help the Project to identify opportunities to save water and improve operational efficiencies. Funding through the Oregon Water Resources Department Feasibility Study Grants program will be critical to achieving these goals.

Addressing water issues in the Klamath watershed is a difficult task. Identifying solutions to improve irrigation water delivery system infrastructure is a step in the right direction for a strategic approach to investing in the Oregon economy.

We appreciate the opportunity to work with the Oregon Water Resources Department to continue to improve the Klamath Project Districts ability to efficiently deliver water to our economy.

Sincerely,

Donnie Boyd
Commissioner
